

LESSON PLAN

Time- 4th April 2016

Lesson duration- 45 minutes

Participants- students of I Liceum Ogólnokształcące im. M. Kromera and guest students from partner schools

Language- English

Part 1 Getting to know one another- 20 minutes.

1. Teacher greets the class, introduces students to one another.
2. Students are divided into groups of 4, each group containing students from host school and guest students from partner schools.
3. Students are given sheets with questions- they ask and answer questions (concerning hobbies, sports, schools and everyday life).

Part 2 Astronomy- 25 minutes.

1. Reading comprehension- students read a text about planet Mercury and do reading comprehension exercises- multiple choice, gap filling, answering questions.
2. Students do an astronomy quiz on the topic of planets- „Planet Riddles”.
